

AWAKENING

- technical rider -

Minimum travelling crew: 4 people

Setup time: 8h

Rehearsal time: 3h

Duration of the show: 70mins

Reduction time: 2h

Stage

Black box stage with black ballet carpet on the floor.

Minimum floor size: min 8x8 m

Minimum height: 5 m

Offstage wings on both sides (3-3) and backstage space (min. 1m) behind the rear curtain.

Binding spots

Left and right is always from the audience point of view.

- One fixed binding spot on the sealing in the middle of the stage to attach and hang aerial rope for aerial acts (1 person) – carrying capacity at least 250kg.

To attach the aerial rope to a safe, fix, strong, at least 5m height binding spot in the middle of the stage width is necessary for the performance.

- Another fixed binding spot on the sealing over the stage: back and right for a slow aerial lift of 1 person – carrying capacity at least 150kgs
- 2 other binding spots offstage wing right back for the slow aerial lift of 1 person. One spot on the sealing, and one spot on the floor or close to the floor or on the wall (max 1m height) (alternatively: stage weights)– carrying capacity at least 150kgs
- Binding points offstage for tying décor ropes in all wings (first wings approx. 0,5m high, second wings approx. 1 m high, third wings approx. 2-3 m high from the floor) – carrying capacity at least 5 kgs
- At least 12 (preferably 15) other binding points on the sealing of the stage (for decor lamps) – carrying capacity altogether at least 20 kg. (These can be on bars as well as fixed points.)

Please consider the image below. (It is not proportionate!)
